SUPRAMAX 1328

STYLE NA01

SUPRA X25

UNIKE ART WALL

Five decisions make a room.

A lift interior is not one choice but five. This book walks them in order – and every option on every page carries its code.

01 Walls – the room’s character: steel, wood, colour, mirror or art, from five MP collections and the YugX design range.

02 Floor – the ground it stands on: steels, stones and vinyls, matched or contrasted.

03 Ceiling & light – how the room glows: ceiling geometries and LED light, warm to cool.

04 Mirror & rail – depth and touch: panel or partial mirrors, handrails and skirting.

05 Signalisation – the conversation: operating panels, buttons and displays, in car and on the landing.

Mark the codes, photograph the page, send it to your YugX consultant – the composition comes back priced and drawn.

Which options, which lift.

MP platforms ARIA · ATRIA · MAGNA

WALLS All five MP collections – Viliter, Supra, Supramax, Style, Ambientum

ART WALLS Ambientum Unike – pre-designed or fully custom

SIGNALISATION MP FUSION panels · IMPULSE buttons · LCD / TFT displays

SCENIC MP scenic structures & glass cars – Atria

COMPOSED IN MP CarDesigner – live, in 3D

YugX platforms HALO · LUMI · NEST

WALLS The YugX design range – six frame finishes, six glass tones

ART WALLS YugX Art Walls – customised to YugX shades, full height

SIGNALISATION The YugX COP / LOP range – in car and on the landing

COMPOSED IN The Interior Studio – with your YugX consultant

Every page ahead is tagged with the models it serves – look for the model line under each title.

■ CHAPTER ONE

MP Platforms

Aria · Atria · Magna

Five interior collections, FUSION signalisation, scenic cars and steel structures – the MP Spain range, on the pages that follow.
Composed live in MP CarDesigner.

■ THE COLLECTIONS

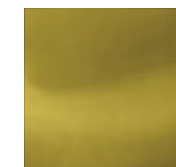

Five collections. One ladder.

MP's interior collections climb from hard-wearing to fully bespoke. Start where the building's duty demands – finish where its ambition does.

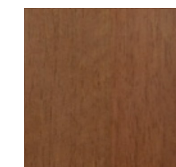

Viliter THE WORKHORSE

Coated steel in eight living colours – from K01 White to K10 Blue – built for hard duty, easy to keep beautiful.

Supra THE METALLICS

Brushed, mirror and golden stainless steels – X02 to X25 Golden Mirror – light made material.

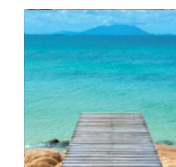

Supramax THE GRAND PANEL

Large-format panels for statement cabins – depth and warmth at commercial scale.

Style THE WARMTH

Woods and soft naturals – Fresno to Oak Nature – matt grains that make a lobby feel like a home.

Ambientum THE CANVAS

Glass, colour and the Unike art walls – up to a wall that is entirely, provably yours.

Every collection, full-size, at the Interior Studio – and on the pages that follow.

■ COLLECTION 01 · MP

Viliter. The workhorse.

FOR ARIA · ATRIA · MAGNA

Coated steel that takes the building's hardest day and stays beautiful – living colour, scratch-resilient, wiped clean in a pass. The honest default for towers, hospitals and homes alike.

Unike Van Gogh

JL – aluminium · AC – colour · Unike – art walls, pre-designed or printed from your own artwork, composed in MP CarDesigner. Samples full-size at the Interior Studio.

The ground it stands on.

FOR ARIA · ATRIA · MAGNA

The floor takes every footstep, trolley and monsoon shoe the building sends it. MP's range runs in five families – matched to the walls, or in deliberate contrast.

VINYL RUBBER

Timbers and stone concretes – warm underfoot, quiet, hard to mark.

ANTIBACTERIAL VINYL

Dolphin to Stream – hygienic colour for hospitals, schools and homes.

STONE RUBBER

Steel, Greige, White – the speckled workhorses of high traffic.

METAL

Checkered aluminium and teardrop steel – for Magna's goods duty.

GRANITE

Natural blacks and artificial whites – the stone the lobby already speaks.

G59 GRANITE WHITE UNDER NE09 OAK – THE RECIPE FROM COLLECTION 04

R – rubber & vinyl · C – metal · G – granite. Further granites and greys on request – samples full-size at the Interior Studio.

How the room glows.

FOR ARIA · ATRIA · MAGNA

Light decides whether a cabin feels like a corridor or a room. Every MP ceiling runs LED – cool-running, with a two-year guaranteed service life – in six design families.

PANEL 600 × 600 recessed square – L90 · L95 · L97

FULL SURFACE The whole ceiling as one light – L100

CIRCLE A soft round centre – L96

SPOTS Downlights, two to four – L24 · L41

LINEAR Grids, slots and lines – L21 · L40 · L42 · L98

PRINTED A sky or a canopy overhead – L150 · L151

Steel family: X02 SB · X12 Mirror · X13 Linen · X22 Super Mirror · X25 Golden · X16 SB Plus – AISI 304 stainless (X02: AISI 441). Golden-group skirting pairs with FUSION SUPRA panels; AL04 Black & AL12 Natural aluminium pair with all others. Halo, Lumi & Nest – rails and trims from the YugX design range.

The conversation.

FOR ARIA · ATRIA · MAGNA

The panel is where the building answers back. MP's FUSION system – medium COPs at 1535 × 240 mm or full-height columns at 2040 × 230 mm – folds open for service and closes into the wall.

FUSION COLOR Seven colours, AC1 to AC10 – or any RAL of yours.

FUSION JL Printed panels – forests, cities, oceans, or your own image.

FUSION SUPRA Steels and the golden X25 – matched to the Supra walls.

FUSION Color FUSION JL FUSION Supra Supra X25 Full-height column

Touch and tell.

THE FAMILY TFT-028 · 043 · 070 · 070X – and LCD-070E / TFT-070E with MP ecoGO

VANDAL DUTY EN 81-71 & EN 81-72 options – for transit, parking and public buildings.

Matching LOPs and hall lanterns at every floor · PET panels in AL04 black or AL11 grey frames. Halo, Lumi & Nest – the YugX COP / LOP range, on the following pages.

The lift the building shows off.

FOR ATRIA

When the lift stands in the atrium, it becomes architecture. MP's scenic programme puts Atria in glass – five pre-designed cabins, named for the great glass houses, or a shape drawn only for your building.

Murano

Squared – up to three panoramic walls

Baccarat

Polygonal glass back wall

Bohemia

180° semi-circular glass back

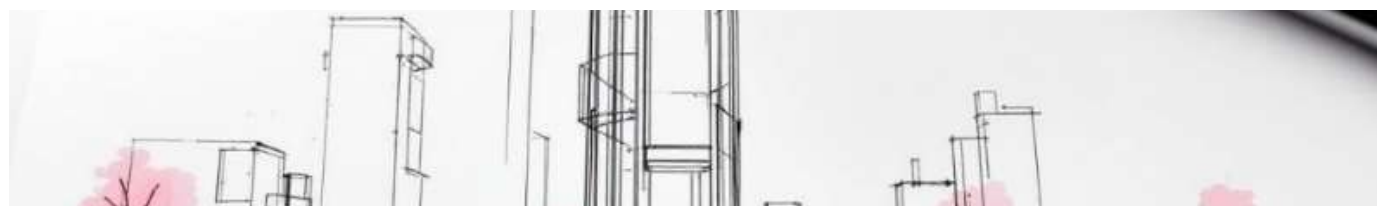

Sowerby

180° semi-circular glass back

San Luis

Circular car, made of glass

CO-DESIGNING WITH YOU – FROM SKETCH TO CERTIFIED CABIN · MP DESIGN OFFICE, SEVILLE

PRE-DESIGNED

Murano to San Luis – engineered and priced, the fast route to glass.

CO-DESIGNED

Tailored scenic creations, drawn with MP's design office – from sketch to certified cabin.

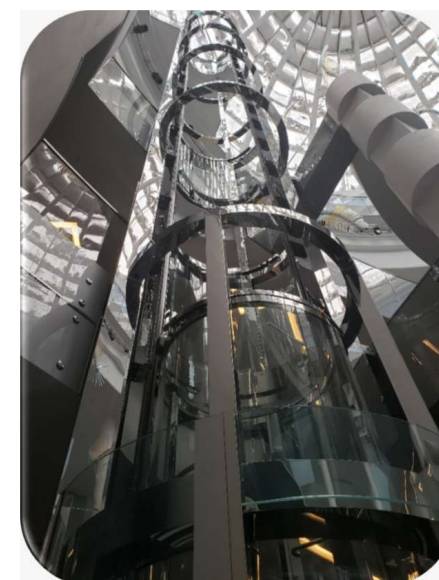

THE STRUCTURE

A modular steel-and-glass shaft where the building has none – self-standing, glazed, engineered by MP.

Glass, executed.

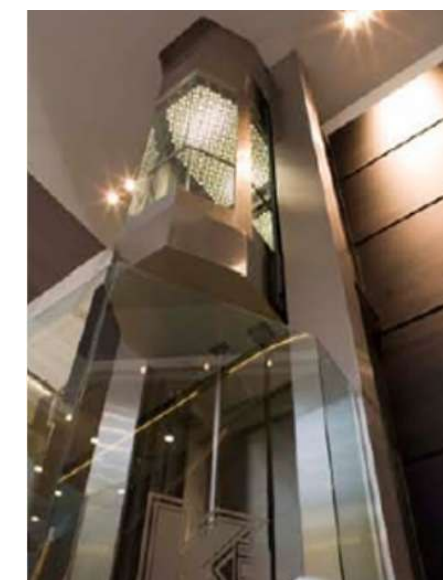

MP GLASS PANORAMIC – THE LIFT BESIDE THE STAIR · AN MP REFERENCE

The atrium tower

Against heritage stone

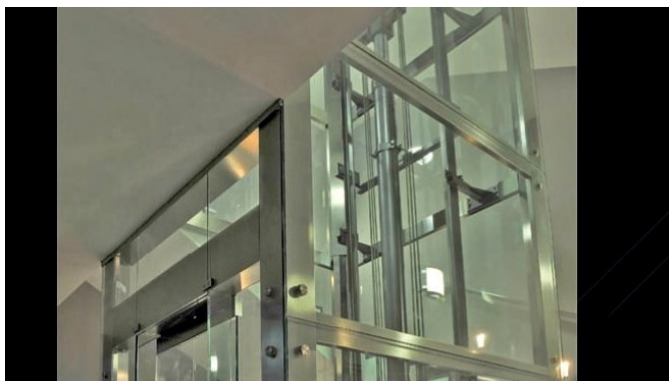

The mall panoramic

MP GLASS – designs tailored to your imagination, on the same certified Atria platform. For the home, the panoramic circle is Halo – the X1 collection.

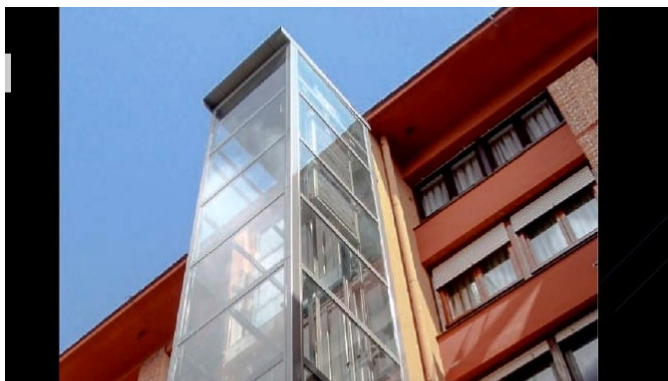

A shaft where there was none.

FOR ATRIA

Self-supporting modular steel structures from MP's structures group – seven models, from full glass to brick-clad, engineered to EN 1090 and dimensioned to the building that never planned a lift.

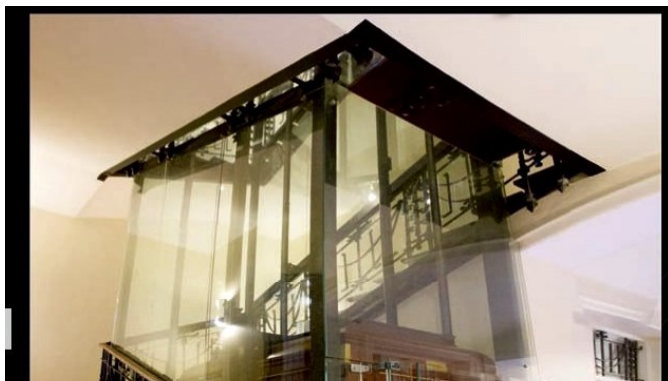

Deluxe Luxury

Premium Value

Quality Aesthetics

Special Bespoke

SKIN

Full glass · glazed panels · sandwich panel · brick – matched to the facade or proudly apart.

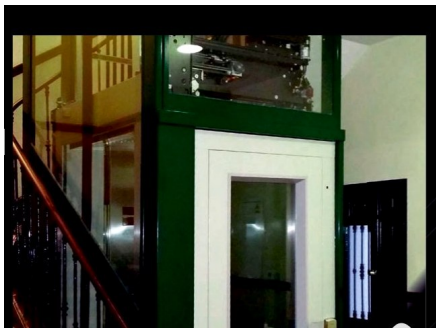

PLACEMENT

Facade · courtyard · stairwell · interior atrium – outside or within.

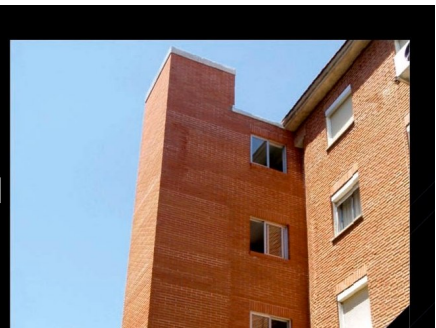

COMPLIANCE

UNE-EN 1090-1 steel structures · engineered, certified, erected by trained crews.

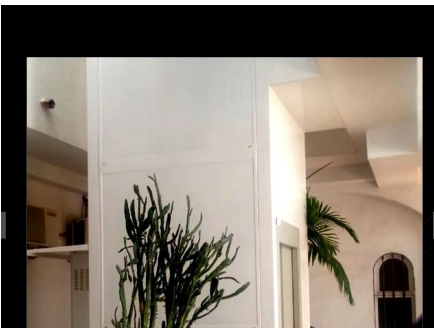

Chosen to belong.

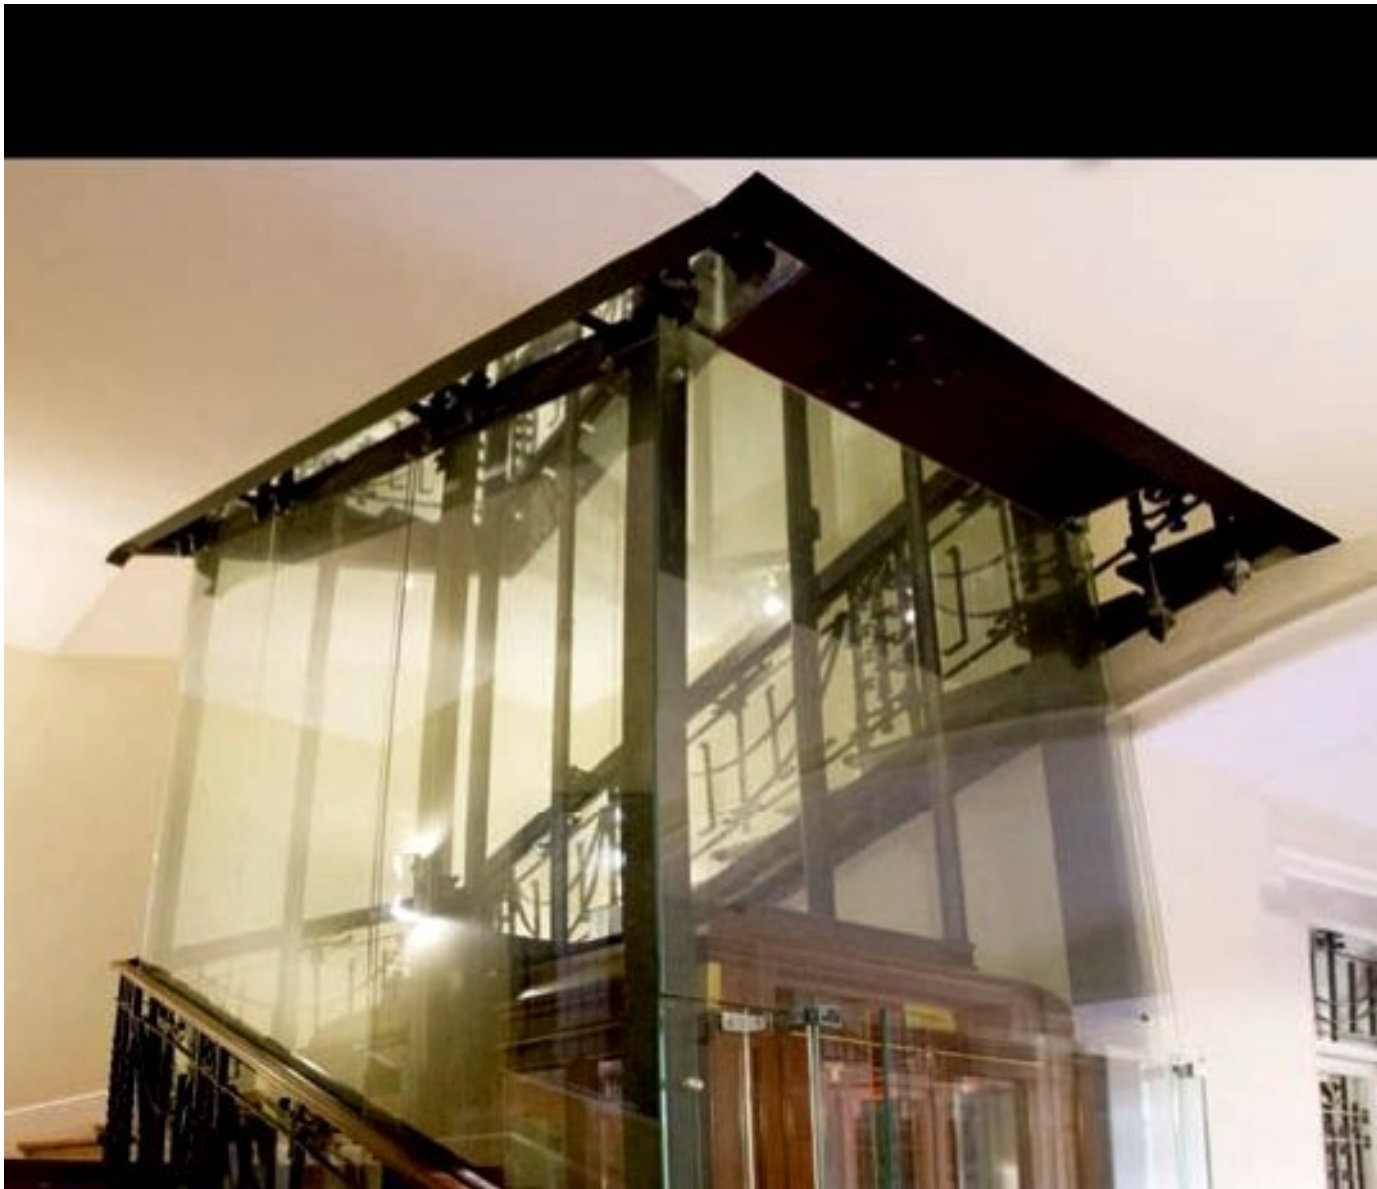

Protected Full integration

Brick Functionality

Sandwich Comfort & insulation

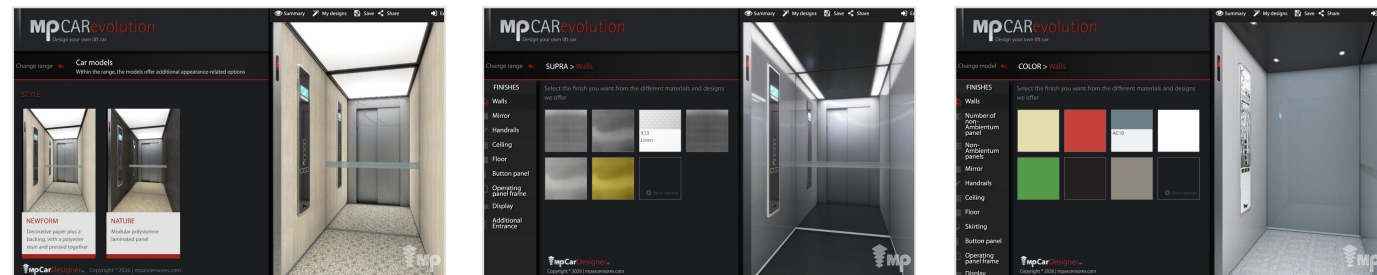

MODEL SPECIAL – A BESPOKE STRUCTURE IN THE STAIRWELL

The model is chosen with your consultant and dimensioned to the building. Halo, Lumi & Nest – YugX aluminium structures and glass, on the following pages.

MP CarDesigner.

FOR ARIA · ATRIA · MAGNA

Every MP finish in this book lives in MP's own 3D configurator. Your consultant composes the cabin on screen – wall by wall, in minutes – before a single panel is made.

01 Choose your style
Start from your model and pick a cabin family – the whole car changes instantly.

02 Compose every finish
Walls, mirror, handrails, ceiling, floor, controls – each surface from the real material library.

03 Walk through it in 3D
Turn, look up, step back – approve the exact cabin, or share it and decide together.

Scan to open MP CarDesigner – compose your cabin online, at mpcardesigner.com.

Or ask your YugX consultant for a live session – at the Experience Centre, or from your living room.

CHAPTER TWO

YugX Platforms

Halo · Lumi · Nest

Structures finished like furniture, full-height art walls and quiet controls – the YugX design range, on the pages that follow.
Composed at the Interior Studio.

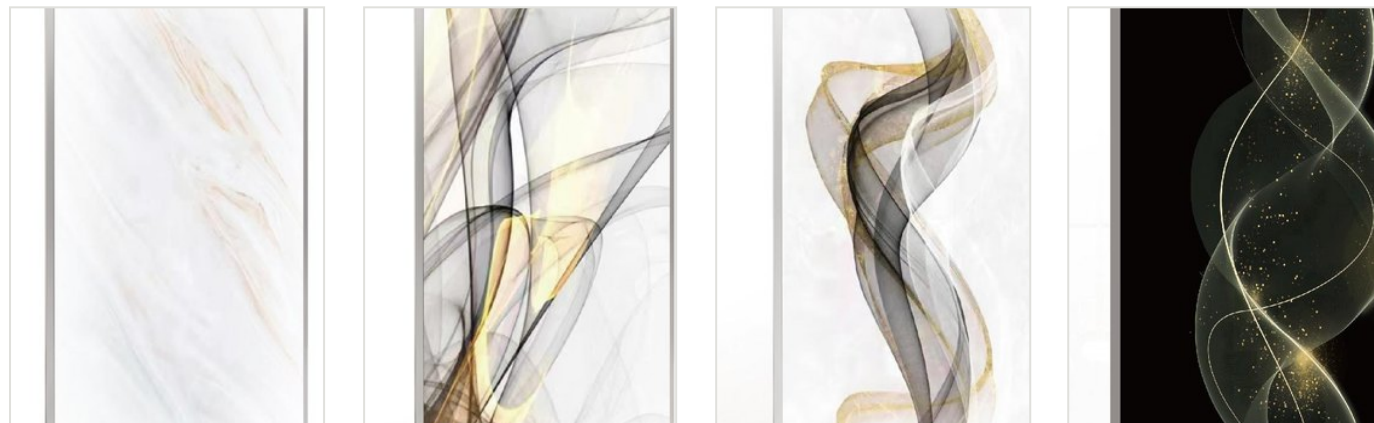

THE ART WALLS · YUGX

Art that rides with you.

FOR LUMI · NEST

Every Lumi and Nest carries a full-height art wall – a single sheet of printed glass, customised to YugX shades, that turns the cabin's back wall into a canvas. Seen through the structure, it reads like a painting hung in your home; step inside, and it travels with you.
